III. Description of the Proposed Transactions

On July 25, 2011, GTL and the owner of CTI and its affiliate, 3V Technologies Incorporated ("3V"), entered into a Stock Purchase Agreement (the "Agreement"). Pursuant to the Agreement, the current shareholder of CTI will transfer all of his shares of CTI and 3V to GTL. As a result, CTI will become a wholly owned subsidiary of GTL, and GTL will acquire direct control of CTI. For the Commission's convenience, pre- and post-Transaction corporate organizational structure charts depicting the transfer of control are provided as **Exhibit "A"**. Consummation of the Proposed Transaction is contingent on, among other things, receipt of the necessary regulatory approvals.

The initial phase of the Proposed Transaction – transfer of control of CTI from CTI's present owner to GTL through the sale of stock – does not involve any assignment of licenses or customers. All current customers of CTI will continue to be served by CTI. This phase of the Proposed Transaction will be transparent to customers who will continue to receive their existing services at the same or similar rates, terms and conditions without any immediate changes.

At some time subsequent to consummation of the transfer of control, CTI will transfer all or substantially all of its assets related to the provision of telecommunications services, including customers, customer agreements and contracts, vendor agreements and contracts, intellectual property, and promotional materials (collectively, "Assets") to GTL. GTL plans to operate the companies separately for a period of time, until such time as integration can be accomplished in a transparent manner with no negative effect on end users. Once the CTI Assets are transferred to GTL, current CTI customers will receive service from GTL pursuant to the same or similar rates, terms, and conditions without any immediate changes. GTL and CTI will provide consumers with any necessary notice as required by 47 C.F.R. § 64.1120(e) prior to completing the assignment of the CTI Assets to GTL. Once all CTI customers are transferred to GTL and CTI no longer needs its authorizations for operational or billing purposes, CTI will cancel its authorizations to provide telecommunications services.

The Proposed Transaction will provide CTI with greater operating flexibility to pursue operating purposes, including, without limitation, (a) expansion of its telecommunications infrastructure; and (b) improvement of customer service, billing, financial reporting and other management information systems. There will be no impact on CTI's current customers, since the Proposed Transaction will be transparent to said customers. In addition, it is anticipated that certain key members of the management of CTI will remain in place after the Proposed Transaction is consummated.

IV. Public Interest Considerations

The Parties submit that the Proposed Transaction described herein will serve the public interest. The Proposed Transaction is in the public interest because it will advance economic efficiency by enabling GTL to expand its own business and achieve economies of scale. These benefits are expected to strengthen GTL's ability to expand their offerings and services to a broader customer base. The Parties expect that the Proposed Transaction will enable GTL to strengthen their competitive position to the benefit of consumers in this State and the telecommunications marketplace.

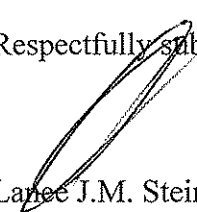

Further, as described above and because of the nature of this particular customer base, the Proposed Transaction will be conducted in a manner that will be transparent to customers of CTI. Following consummation of the asset transfer, GTL will continue to provide high-quality communications services to CTI customers without interruption and without immediate change in rates, terms or conditions.

The Parties emphasize that the Proposed Transaction will be seamless and transparent to CTI's customers, and in no event will it result in the discontinuance, reduction, loss, or impairment of service to customers.

I have also enclosed an extra copy of this letter to be date stamped and returned to me in the enclosed, overnight envelope.
